2,500,000 Dollars For Your SAFETY

In order to increase the factor of safety to the millions of passengers who move over its tracks during the year, the Louisville & Nashville Railroad is spending millions of dollars in equipping its tracks with an electrically-controlled, automatic block signal system.

These signals protect trains against head on and rear-end collisions, open switches, broken rails, or cars on the siding standing too close to the main track. In addition to the safety features, these signals expedite traffic and enable trains to be run more nearly on time.

Beginning in 1912, the L. & N. now has completed and has under construction and contracted for, 1,089 miles of such signals—at a cost of \$2,592,000.00, or \$2,380.00 per mile. The Company spends \$220,000,00 every year to keep these signals in good working order.

Constant watchfulness and care on the part of the L. & N. organization, coupled with the Management's policy of providing proved safety devices, has resulted in the L. & N. having an enviable record for safety to passengers.

POLITICAL UPHEAVAL IN SPAIN IMMI NENT; WEYLER MAY REPLACE RIVERA

PARIS, Feb. 20 .- Don't be deceived by the rosy reports about what is going on in Spain. And don't be surprised if at any time due to seri-ous dissensions among themselves, you hear that Dictator Primo de Rivera and his whole crowd of generals have resigned and that King Alfonse has called on his old standby, 804 car old General Weyler, to conduct the government for a time.

The military junta which grabbed supreme power last September has had a hard time trying to keep its promises of sweeping reforms. but disputes about the fate of fellow gen erals are the things that are sapping

Last year the Spanish army in Morocco, fighting the Riffs, sustained some of the greatest defeats in the history of the country.

nocent. The heads of the army are thus at loggorheads. A feeling is growing in Spain that it might be well to

return to constitutional government.

It's hard to tell just what is going on in Spain. As with Russia, there is a heavy censorship. Also as with Russia, no two persons seem to agree i ntheir reports. Lately some news

But there is something to contrast with this stuff, it is the voice of the man who is the conscience of Spain—Alignet Unanumo.

Perhaps you never heard the maille of this professor of Greek at the Uni versity of Salamanca. He is the greatest writer in Spain.
